to help middle and high school students
prepare for college

HELPING YOUNG PEOPLE KNOW HOW 2 GO 2 COLLEGE!

KnowHow2GO Activities to help middle and high school students prepare for college

These hands-on activities are designed to reinforce the four steps of KnowHow2GO:

- Step 1. Be a pain-in a good way.** Find an adult to help guide you to college.
- Step 2. Push yourself.** Take the tough courses in high school – and get involved in extracurricular activities.
- Step 3. Find the right fit.** Think about your career interests and then research colleges that fit those interests.
- Step 4. Put your hands on some cash.** Money is available to help you pay for college, but you have to apply!

We encourage you to photocopy the student worksheets included with these activities for use at your school or organization.
